

TRIBUTE TO THE 18TH ANNUAL  
FREMONT FESTIVAL OF THE ARTS

**HON. FORTNEY PETE STARK**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, July 11, 2001*

Mr. STARK. Mr. Speaker, I would like to pay tribute to the 18th Annual Fremont Festival of the Arts sponsored by the Fremont Chamber of Commerce. The two-day Festival, to be held on July 28 and 29, 2001, is expected to attract over 450,000 attendees and has become a model of success for the modern festival. This single event provides some \$400,000 in contributions to non-profits for the betterment of communities in Fremont, California.

Over 780 artists, 35 culinary selections and 20 bands will be featured at the Festival. Three thousand volunteers give willingly of their time to contribute to the Festival's success.

It takes generous and concerned individuals, such as the volunteers, to reach out and make a difference, ensuring promise and opportunity for this and future generations. It also takes the support of business sponsors and patrons to ensure the success of the Festival.

The Festival typifies the spirit of community service, which is alive and thriving in Fremont. I am proud to salute the efforts of this year's Festival Chairman, David M. O'Hara, the organizers, the volunteers, the sponsors and the patrons of the Fremont Festival of the Arts for their generous and untiring efforts to ensure continued success.

PAYING TRIBUTE TO THE LANSING  
BOARD OF WATER & LIGHT

**HON. MIKE ROGERS**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, July 11, 2001*

Mr. ROGERS of Michigan. Mr. Speaker, I rise to honor the proactive efforts of the Lansing Board of Water and Light in Lansing, Michigan, to develop a program aimed at using environmentally friendly energy to generate the electricity it provides in the Lansing metropolitan area.

The Board of Water and Light has launched a Green Wise Electric Power program that encourages customers to voluntarily pay an additional minimal fee to cover the added cost of purchasing electricity from "clean" sources. The program allows the municipal utility to buy some or all of its electricity from clean, renewable sources such as wind, water and biomass generation. While the cost of cleaner electricity may be higher than that provided through conventional sources such as coal or natural gas, the environmental advantages make this a highly worthy program.

As America struggles to meet its environmental challenges, the Lansing Board of Water and Light has shown extraordinary vision and commitment to protecting our precious resources while continuing to meet the electric power needs of its customers. They are working hard to achieve that balance between environment and economy which is essential for the future of every community across the nation.

I urge my colleagues in the U.S. House of Representatives to join me in congratulating the Lansing Board of Water and Light and to extend to its board of directors and staff our admiration for their service in the interest of the nation, the State of Michigan, and their own community. We wish them well in their future endeavors.

TRIBUTE TO ELLEN V. FUTTER,  
NASA PUBLIC SERVICE MEDAL  
RECIPIENT

**HON. JERROLD NADLER**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, July 11, 2001*

Mr. NADLER. Mr. Speaker, I rise to express my pride, and that of New York, that on June 21, 2001, Ellen V. Futter, President of the world-renowned American Museum of Natural History, was awarded NASA's prestigious Public Service Medal by NASA Administrator Daniel S. Goldin. She was presented this medal in recognition of her leadership in advancing the highest quality science education.

Through Ms. Futter's leadership, the American Museum of Natural History is bringing NASA's cutting-edge science to children and families of New York, the nation, and the world through the Rose Center for Earth and Space and the NASA-sponsored National Center for Science Literacy and Education Technology. Her achievements rest on a keen appreciation of the importance of scientific literacy in the 21st century and a unique vision for bridging the gap between science and the public.

With the leadership of Congress, the American Museum of Natural History and NASA have forged a productive scientific and educational partnership that advances their shared goals of advancing science and scientific literacy nationwide. The National Center for Science Literacy, Education, and Technology was conceived by the Museum; approved, advanced, and supported by Congress; and sponsored by NASA. It is a model partnership of which we can all be proud.

Founded in 1869, the American Museum of Natural History is one of the nation's pre-eminent science and education institutions. Throughout its history, its efforts have been directed to its twin missions: to examine critical scientific issues and increase public knowledge about them. Its rich scientific legacy includes an irreplaceable record of life on Earth in collections of some 32 million natural specimens and cultural artifacts. The Museum's power to interpret wide-ranging scientific discoveries and convey them imaginatively has

inspired generations of visitors and educated millions about the marvels of the natural world and the vitality of human cultures.

I congratulate Ellen Futter, the American Museum of Natural History, Daniel Goldin and NASA on their remarkable accomplishments.
